Q-1 Tax filling knowlegde (Individual user)

If you are filing an **individual Income Tax Return in Pakistan through FBR IRIS**, you should collect your financial information for the relevant tax year before starting. FBR requires you to submit both the **Income Tax Return** and the **Wealth Statement (assets and liabilities)** through IRIS.

Here is a practical checklist of the information you normally need:

Category	Information / Documents Needed
Personal details	CNIC, registered mobile number, email address, residential address
FBR account	NTN/Registration Number and IRIS login credentials
Salary income	Annual salary, salary slips or annual salary certificate from employer, tax deducted by employer
Business/Freelance income	Total receipts/income, business expenses, profit/loss information
Bank accounts	Bank name, account details, year-end balance and preferably annual bank statements
Other income	Rental income, commission, dividends, profit on bank deposits, investments, etc.
Property	Details/value of house, plot, apartment, commercial property or agricultural property owned
Vehicles	Car/bike details and value
Investments	Shares, mutual funds, savings certificates, securities, investment accounts, etc.
Cash	Cash in hand at the end of the tax year
Other assets	Valuable assets or other investments that need to be declared
Liabilities	Bank loans, personal loans, mortgages or other outstanding liabilities
Expenses	Household expenses such as rent, utilities, education, medical, travelling and other personal expenses
Taxes already paid	Tax deducted from salary, bank profit, mobile/internet bills, vehicle registration/token, property transactions and other withholding taxes
Previous return	Previous year's Income Tax Return and Wealth Statement, particularly for wealth reconciliation

Q-2 Market reserch how many apps already existed and how much funtinality they are already providing: [For TheSmartKhaata]

1. TheSmartKhaata - Finance

App	Main Functionality
Cortix SL	AI expense entry, categorization, receipt scanning, budgets, reports
Spendee	Expense tracking, budgets, bank sync, spending analysis
Wallet by BudgetBakers	Expense tracking, budgets, bank sync, reports, receipt scanning
Rocket Money	Expense tracking, budgeting, subscriptions, financial insights, AI
